MEMORANDUM FOR: Deputy Director for Science & Technology  
Deputy Director for Operations

FROM : John F. Blake  
Deputy Director for Administration

SUBJECT : Attached Memorandum from the IG on  
Suggestions for "Preparing for  
Overseas Assignment"

1. Attached is a memorandum from the Inspector General to the Director of Training commenting on the fact that "Agency people overseas expect too much in the way of support." I feel it important that this information be brought to your attention.

2. I shall be discussing this matter with the Office of Training to determine whether there are other ways and means besides the single course mentioned toward getting the word to our people before they depart for overseas tours.
